We seek to appoint a skilled and enthusiastic individual to join the technical team within our successful Design and Technology Department, with immediate effect. The post-holder will be responsible for the day to day provision of practical equipment and resources for DT lessons, ensuring that proper health and safety procedures are being observed. The successful candidate will be familiar with relevant tools, machinery, and equipment, ideally including computer-aided design software, and will be proactive, organised and adaptable when working with staff and students.

While experience as a technician in a school environment is preferable, we will consider applications from well-qualified candidates with relevant experience, who are interested in training as technicians.
